HOUSE AND LAND TAX.

The House and Land Tax is assessed on the capital value and is levied at the following rates :—

per
mille.

(1) Property not built upon :—

- | | |
|---|----|
| (a) Lands, fields, vineyards, gardens, subject to tithe, or to the equivalent of tithe (Badal-ushur), or changed into land of the muqataa category .. | 4 |
| (b) Land destined for building purposes | 4 |
| (c) Lands not paying tithe, nor paying the equivalent of tithe, nor changed into muqataa land | 10 |

(2) Property built upon :—

- | | |
|--|----|
| (a) Farm buildings | 4 |
| (b) Farm buildings hired and occupied by tenants not exceeding 200,000 mils. capital value | 5 |
| (c) Farm buildings hired or occupied by tenant exceeding 200,000 mils. capital value | 8 |
| (d) Farm buildings within the area of a town or village .. | 5 |
| (e) Wakf buildings (mussaqaat waqfiyeh) | 4 |
| (f) Houses inhabited by the proprietors, the value of which is below 200,000 mils. | 5 |
| (g) Houses inhabited by the proprietors, the value of which is over 200,000 mils. | 8 |
| (h) Buildings leased or rented by their owners | 10 |

Additions to this tax aggregating 41% on buildings and 56% on lands were made from time to time under Ottoman Decrees. These additions are still collected, except in the case of buildings and lands re-assessed since 1919. Immoveable property registered in the names of corporate bodies is subject to an additional tax varying from $\frac{1}{2}$ to 1 per mille of its assessed value.

In the townships of Haifa, Acre and Shefr Amr, a roofed property tax is levied in lieu. This tax is assessed at 3 $\frac{1}{3}$ % of the gross income of buildings with the exception of farm buildings, which are exempt.

Exemption is granted in respect of the buildings of recognised Charitable and Religious Institutions and buildings and playgrounds owned and maintained by recognised Educational Institutions, provided the buildings are used solely for charitable, religious or educational purposes and are not revenue producing.

The urban property tax Ordinance provides for the assessment of the net annual value of immovable property in urban areas with a view to the imposition of a tax to replace the House and Land Tax (Werko), the tax on buildings (Musaqafat) and Badal Ushur. The new tax is payable by the reputed owner of the property at such annual rates, not exceeding 10 per centum of the net annual value of house property and land, as may be prescribed for the various categories of property. The Ordinance also provides for a revision every year and a general re-assessment every fifth year.

The Ordinance was applied in 1929 to the towns of Jerusalem, Jaffa (including Tel-Aviv and Sarona), Gaza, Ramleh, Lydda, Tulkarem and Beisan, and in 1930 to the towns of Tiberias and Nablus at rates varying from 6% to 9% of the net annual value.

Exemption is granted in the following cases :—

- Properties which formerly enjoyed exemption in respect of House and Land Tax ;
- House property occupied by the registered owner of which the net annual value is less than the sum specified by order and in no case exceeding £P.20 ;
- Newly constructed house property.

The High Commissioner may remit wholly or in part the tax on playing fields, open spaces accessible to the public, and property on which building is prohibited or restricted under town planning orders.

TITHE.

The Commuted tithe has now replaced the Tithe except in the case of a small number of Bedu tribal areas in the Beersheba Sub-District; where the tithe at the rate of 10 per centum of the produce of the land is still collected in money.

Exemption from tithe is granted in respect of fuel wood, vegetables which cannot be preserved, vines grafted on American stock for ten years after planting, cotton, hay from village pasture lands, tobacco and the produce of land utilised for agricultural instruction or research.

The Commuted Tithe is based on the average aggregate amount of tithe assessed as payable during the four years preceding the application of the Commuted Tithe and is apportioned among reputed owners of titheable land in proportion to the potential productivity of their holdings as ascertained by Village Assessment Committees.

The latter Ordinance requires each Council to prepare a budget each year showing the estimated revenue and expenditure and to submit it to a District Commissioner for the approval of Government. It also validates the acts of Municipal Councils appointed since the British Occupation and the imposition of any rates and taxes and the charging of any fees by such Councils.

By the Municipal Loans Ordinance, 1922, Municipal Councils are empowered, subject to the approval of the High Commissioner, to raise loans secured on the property and revenue of the Councils.

The Municipal Courts Ordinance, 1928, empowers the High Commissioner to appoint fit persons of education and standing to be Magistrates of a town. He may, on the recommendation of the Chief Justice, appoint as Chairman of a Municipal XCourt a Stipendiary Magistrate. Cases within the jurisdiction of the Court are tried by a bench consisting of not less than two members but the Stipendiary Magistrate may try any case sitting alone. LOCAL COUNCILS.

The Local Councils Ordinances Nos. 1 and 2 of 1921, empower the High Commissioner on the recommendation of a District Commissioner by an order published in the Official Gazette to declare that any large village, quarter of a town having a distinctive character, or group of villages shall be administered by a Local Council.

The order may prescribe the composition of the Council.

Councils are invested with juristic personality, and may raise a loan secured on their property and revenues, with the approval of the High Commissioner.

Councils can levy rates on the property of the village or quarter with the sanction of the District Commissioner and may impose, also, a poll tax on the inhabitants and certain fees for licences or otherwise which are authorised by the Law of Municipal Taxation in force from time to time. The rates and fees which may be imposed or charged by any Council are set out in the Order constituting each Council. Under the Regulation of Trades and Industries Ordinance, 1927, a Local Council is given the same powers as a Municipal Council with regard to the regulations of trades and industries carried on within its area which affect public health and public security.

30 Local Councils have been declared in Palestine, 17 in the Northern District, 9 in the Southern District and 4 in the Jerusalem Division.

The census figure of 1922 gave 103,331, as the population of the Bedouin Tribes. Birth and Death figures for this section of the population are not available.

No information is available regarding paupers.

SECTION XVII.

CURRENCY, BANKING, WEIGHTS AND MEASURES, CALENDARS, LANGUAGES.

CURRENCY.

It was declared by Public Notice that as from the 22nd January, 1921, the following currency only should be legal tender in Palestine :—

Egyptian gold, notes, silver and nickel coins, and the British sovereign at the rate of 97.50 piastres Egyptian. No restriction, however, was placed on the circulation, in the ordinary course of trade, of coins of other currency at their current market rates.

The Order-in-Council dated the 7th February, 1927, Currency Notes Ordinance, 1927, and the Proclamation by the High Commissioner under Section 11 (2) of the Order-in-Council provide for the introduction of a Palestine currency consisting of coins and currency notes with effect from the 1st November, 1927. Other legislation relative to currency is contained in the Currency Substitution Ordinance, 1927, the Coinage Ordinance, 1927, the Bank Notes Forgery Ordinance, 1927, and the Coinage Amendment Ordinance, 1929.

A Currency Board has been constituted to provide for and to control the supply of currency, to ensure that the currency is maintained in satisfactory condition and generally to watch over the interests of Palestine as far as currency is concerned. The Board makes arrangements for minting of coins, printing of currency notes, and investment of the funds of the Board.

The Board authorises the issue of currency in Palestine against repayment in London ; and arranges for issue, against currency tendered in Palestine, of drafts or telegraphic transfers payable in sterling in London.

The proceeds of the sale of coin and currency notes and all other revenue of the Board are, after the necessary deductions have been made for all expenses and for any contributions made to the revenues of Palestine, credited to a Currency Reserve Fund, and any losses which may be incurred are debited to the Fund. Any contribution to the revenues of Palestine is made after the Board and His Majesty's Secretary of State for the Colonies are satisfied that the reserves are adequate to ensure the convertibility of the currency and to provide a reasonable reserve against depreciation of investments.

The standard of currency is the Palestine Pound divided into 1,000 mils. The Palestine Currency Order provides for a gold coin of one Palestine Pound containing 123.27447 grains of standard gold (the equivalent of the English Pound) : it is not intended at present to introduce gold coins. Silver coins of 100 and 50 mils, nickel-bronze coins of 20, 10 and 5 mils, and bronze coins of 2 and 1 mils are in use. Silver coins are legal tender for the payment of £P.2, nickel-bronze coins of 20 and 10 mils are legal tender for the payment of any amount not exceeding 200 mils, and coins of lower denominations are legal tender for an amount not exceeding 100 mils. Currency notes of £P.100, £P.50, £P.10, £P.5, £P.1, and 500 mils are in use and are legal tender of the amounts expressed therein.

The Currency Board is represented in Jerusalem by the Treasurer of Palestine and by Barclays Bank (Dominion, Colonial and Overseas, Ltd.).

Egyptian gold, notes, silver and nickel coins, and the British gold sovereign were by Proclamation declared not to be legal tender after the 31st March, 1928.

WEIGHTS AND MEASURES.

The metric system is followed by the Government, and its use regulated by Ordinance, but the local weights and measures are still commonly employed. These vary greatly throughout the country, but are, subject to considerable fluctuation, as follows :—

(a) LENGTH AND AREA.

1 draa or pic = 67 centimetres—26.38 inches. Cloth measure.
1 draa = 75 centimetres—29.53 inches. Building and Land measure.
1 dunum = 1,600 sq. pics—919 sq. metres—.23 acre. Land measure (4.4 dunums to the acre).

(The official dunum is 919 sq. metres ; in actual practice the dunum ranges between 900 and 1,000 sq. metres).

The following articles were exempted from Import Duty :—Equipment and furniture for any approved institute for members of His Majesty's Forces, bamboo stakes, fishing nets, mosquito netting including mosquito nets, made up of mesh not larger than 12 by 12 to the square inch, and mosquito proof gauze made up of mesh not larger than 18 by 18 to the square inch, shea nuts, household equipment consigned to Archaeological Societies approved by the High Commissioner in Council, asphalt boilers, paper bags, not less than 70 centimetres by 40 centimetres, pipes flumes and fittings therefor imported exclusively for drainage and sewerage schemes by Municipalities and Local Councils, celluloid in sheets, pictures and drawings executed by hand on canvas or paper or similar material, spare parts of machinery, nitrate of silver in crystals, life saving appliances and apparatus for the use of a Fire Brigade and uniforms and badges for members of a Fire Brigade provided that such appliances, apparatus, uniforms and badges are consigned to the Municipality or Local Council or private undertaking by which the Fire Brigade is maintained.

A Customs Tariff Amendment Ordinance No. 2 1930 increased the duty on flour of barley and millet, wheat, rye, crushed and ground wheat, motor spirits, semolina (including semoule) and wheat and imposed a duty of 3 mils per kilo on sesame seed which was previously exempted.

The value of imports for home consumption was £P. 6,985,258 or £P. 181,335 less than in 1929. The decrease was chiefly in respect of rice, sesame, wheat, wheat flour and olive oil unrefined.

Exports of Palestine produce amounted to £P. 1,896,095 an increase of £P. 341,833 over the preceding year mainly in respect of barley, durraha and oranges.

The trade depression which marked the end of 1929 continued during 1930. The influx of foreign capital for investment decreased considerably, particularly on account of the financial crisis in the United States and elsewhere.

The general fall in the price of cereals and commodities throughout the world to the lowest level since the War, combined with plentiful local harvests, caused further difficulties to the Palestine population, many of whom were already suffering from a poor orange season in 1929/30 ; a large number of orange merchants and growers lost considerably and this affected the general trade conditions.

Capital was scarce and credits restricted. As a result of these conditions there was a considerable number of failures.

An example of the difficulty of obtaining credit locally was seen from the number of bills protested from Syria, where some local merchants obtained credits but at very high rates of interest.

The situation, however, was probably better in Palestine than in some neighbouring countries.

The orange season started satisfactorily as regards shipments and prices.

The orange season started satisfactorily as regards shipments and prices. Exports showed an increase, an indication of progress in agriculture and industry.

THE ORANGE TRADE.

Direct shipments of oranges from Jaffa and Haifa commenced early in November.

The prices realised in the United Kingdom and other European markets during November and December were satisfactory; an average of from 12/- to 16/- per case was obtained, although the fruit of the first consignments was not fully coloured. This is due to the late arrivals of the Spanish oranges on the English market and, particularly, to better regulated shipments from this country.

No shipments took place between the 3rd and 11th December in order to avoid a glut in the market during the holidays.

Satisfactory progress was made in the opening up of new markets in Europe. Germany comes next to the United Kingdom in the list of importers of Jaffa oranges ; consignments to that country are gradually increasing and prices realised in November—December were satisfactory, as much as 16.75 Mk for a case of 144 being obtained.

The Scandinavian countries are now offering another market which is growing in importance ; direct communication between Haifa, Hamburg and Copenhagen has been established by the Swedish Orient Line.

The transit of oranges via Italy for countries of Central Europe is increasing and the establishment of direct steamship communication with Trieste is doing a great deal to develop this business.

The export of oranges via Haifa is growing ; 9 steamers loaded in November and December as compared with 6 steamers during the same period in 1929. Small consignments of oranges were also shipped by other steamers calling at Haifa.

A moderate amount of orange planting took place during the year, and it is of interest to note that certain areas were planted at Gaza.

A severe blow to the orange trade was received owing to the increase in Egypt of the import duty on oranges. The present duty is £P. 2.500 mils per ton of oranges which cost only about £P. 3. Efforts by the Government to get the duty reduced were unsuccessful. The loss of this market will have an adverse effect on the orange trade, as all the windfall oranges were exported to Egypt ; no other market is open owing to the quality of that fruit.

In this connection there is room for hope in the fact that satisfactory progress is being made by the " Assis " factory for the manufacture of orange and lemon juice.

The increase in the production and exportation of grape fruit is satisfactory, and prices obtained in the European markets are encouraging.

INDUSTRY.

The yield of tobacco and tombac in 1930 was about 953,800 kilograms compared with, 1,194,000 in 1929 and 341,800 in 1928.

Twelve tobacco factories were working :—

FIGURES OF PRODUCTION.

Year	Cigarettes Kilos	Cut Tobacco Kilos	Tombac Kilos	Snuff Kilos
1928	493,715	16,020	84,071	57
1929	531,887	20,107	100,127	1,209
1930	487,587	20,301	96,900	2,224

39 tons of leaf tobacco, value £P. 6,190 were exported to Poland.

CEREALS AND OLIVE OIL.

The cereal crops were good as compared with those of the previous year. Large quantities of barley were shipped from Gaza to the United Kingdom, Morocco and Tripoli. The Government assistance to the farmers by an increase of the import duty on wheat and wheat flour, if not successful in securing good prices for their produce, at least prevented a total collapse in the market.

The restriction of the importation of unrefined oil was also of assistance.

Local flour is consumed in large quantities, but the price of local wheat and native bread remains practically the same as before the imposition of the higher import duties.

Slightly better prices were realised for local unrefined olive oil and stocks were disposed of.

ELECTRIC POWER.

The construction of the hydro-electric station at Jisr Majameh, which is almost completed, was delayed on account of certain technical difficulties, but it is hoped that current will be supplied from this Station early in 1931.

The Jerusalem Electric and Public Service Corporation spent some £P. 220,000 on plant, and the total number of consumers at the end of the year was 2,800.

The price of current is high—50 mils per kwh, for light and 25 mils for power—but special rates are allowed for large consumers of power and for agricultural purposes.

DEAD SEA MINERALS.

The Palestine Potash Company made considerable progress during the year in the laying down of their plant, and the first output of carnallite was obtained.

OIL AREA OF HAIFA.

The installation of storage reservoirs for mineral oil at Haifa by the Shell Company of Palestine Limited and by the Vacuum Oil Co. has now been completed. Two submarine pipes have been laid in a depth of 6 fathoms in the area at a distance of 750 metres from the shore and now convey crude oils, benzine and kerosene to the tanks in the oil area. There are 13 tanks at the Shell Installation of a capacity of 19,000 tons and 3 tanks at that of the Vacuum Oil Company, the capacity of the latter being 5,800 tons.

A number of tank steamers have already unloaded oil direct through the submarine pipes to the Shell Company and Vacuum Co. reservoirs ; the latter Company by an agreement with the Shell Company use their submarine pipes in the discharge of their tank steamers.

Service tanks, settling tanks, filters, pumping arrangements, etc. have also been erected for the delivery of the various types of oils.

A factory capable of manufacturing 6,000 tins in 8 hours has also been established by the Shell Company; this now gives employment to some 60 labourers.

The submarine pipes have been established for temporary use pending the completion of the Haifa Harbour, when it is hoped that oil tankers will be able to unload at a special oil berth by overland pipes into the reservoirs of the various companies.

BUILDING ACTIVITY.

There was a considerable amount of building in Jerusalem, Tel-Aviv and Haifa, especially as regards shops in Jerusalem, where entirely new shopping centres outside the Old City have sprung into existence.

Of the large buildings under construction, the King David Hotel in Jerusalem and the new Post Office at Jaffa were completed. The new Government House, Barclay's Bank and the Municipality Offices, and the buildings of the Anglo-Palestine Bank Ltd., are nearing completion ; other large public and private buildings were commenced during the year.

TOURIST TRAFFIC.

The new King David Hotel was opened and received the first party of tourists in December. 58,832 tourists and travellers visited Palestine during the year as compared with 60,212 in 1929.

MOTOR TRANSPORT.

Motor transport continued to develop. In addition to regular bus services between the various quarters of the principal towns, and between the different towns and villages, there is a bus service from Haifa to Beirut.

The Overland Desert Motor Service enables passengers from Haifa to reach Baghdad in about 30 hours, or 47 if they stay a night in Damascus.

It is worthy of note that many villagers now use motor trucks for the carriage of their products to various local markets and obtain better prices with less trouble than was the case when animal transport only was used.

INSURANCE OF LETTERS.

Letters may be insured for delivery at any Post Office in Palestine except El Majdal or to any country which undertakes such service. The maximum amount for which a letter may be insured in the inland service is LP. 120 but in the case of letters for abroad it varies according to the country of destination. A letter may not be insured for an amount exceeding the real value of the contents and the cost of packing.

The letters to which the insurance system is applicable are those which contain valuable paper (bank notes, currency notes, bonds, coupons, securities etc) or valuable documents (plans, estimates, contracts etc.) Post-cards, packets of printed papers or commercial papers, sample packets or letters which contain articles other than those mentioned above cannot be insured. An object of value which cannot be sent in an insured letter may be sent generally either in an insured box (foreign service only) or an insured parcel.

A letter for insurance must be presented at the counter of a Post Office. It must not be dropped into a Letter Box or handed to a Postman.

Every letter tendered for insurance must be enclosed in a strong cover made up in one piece, which must be securely fastened by means of seals in fine wax, with spaces between, reproducing a private mark, and affixed in sufficient number to hold down all the folds of the envelope. An envelope with a black or coloured border or a transparent panel must not be used. The make-up of every letter must be such that its contents cannot be got at without external and visible damage to the envelope or its seals.

Space must be left between the postage stamps used for prepayment, and between the postal labels, if any, so that they cannot serve to hide injuries to the envelope. They must not be folded over the two sides of the envelope so as to cover an edge. No labels, except those of the postal service, may be affixed. If the packet is tied round with string or tape, a seal must be placed on the ends where they are tied.

In the case of an envelope with a seam down the middle, the seam should be secured with seals placed not more than 8 centimetres apart.

A letter which, although addressed to a country or place to which the insurance system does not extend, has been irregularly insured, will be returned to the sender.

“ SMALL PACKETS.”

The small packet service is intended to afford facilities for the transmission of small articles of merchandise in the letter mails to certain foreign countries.

The rate of postage is 7 mils per 50 grams, with a minimum charge of 25 mils. The postage must be fully prepaid.

The maximum dimensions are 45 centimetres in length, 20 centimetres in breadth and 10 centimetres in depth or, if in the form of a roll, 45 centimetres in length and 15 centimetres in diameter.

The limit of weight is 1 kilogramme. Dutiable articles may be enclosed in small packets but otherwise the prohibitions applicable to the letter post apply also to the service of small packets. In addition, the following are specially excluded from transmission in small packets :—

Letters, notes or documents having the character of actual and personal correspondence (this prohibition does not apply to open invoices reduced to the simplest form, the address of the article, and the sender's address); coin; bank notes; currency notes; negotiable instruments payable to bearer, platinum, gold or silver, manufactured or not; precious stones; jewels and other valuable articles; postage stamps, whether obliterated or not.

Small packets containing dutiable articles are subject to the Customs regulations in the country of destination; and a postal fee for Customs clearance may be charged on each packet on which Customs duty is levied. The fee for the clearance of such packets entering this country is fixed at 20 mils.

Small packets are subject to the regulations laid down for samples of merchandise as regards form, make-up and packing (e.g., they must be sent in such a manner as to be easy of examination). In addition, the name and address of the sender must be shown on the outside of the packet; and each packet should be conspicuously marked “ Small Packet ” in the left-hand top corner.

A green label giving particulars of the contents for Customs purposes, such as that already used on letter packets containing dutiable articles for places abroad, must be affixed to each packet; and in addition, if the country of destination so requires, one or more Customs Declaration Forms must be enclosed in the packet.

Small packets may be posted in a posting box or handed over the counter. They may be registered, but not insured.

INLAND.

An Inland “ Cash on Delivery ” Parcel and Packet Post Service is in operation. “ Cash on Delivery ” parcels and packets may be posted at any Post Office in Palestine for delivery at any Post Office in Palestine.

FEES PAYABLE AND TRADE CHARGE.

On every Inland “ Cash on Delivery ” Parcel or Packet a special “ Cash on Delivery ” fee is charged in addition to the ordinary postage, and registration or insurance fee where applicable. The amount of the “ Cash on Delivery ” fee varies according to the amount of the Trade Charge, as follows :—

Amount of Trade Charge		Fee									
not exceeding											
LP.	Mils										Mils
—	500	20
1	000	30
2	000	35
5	000	50
10	000	60
15	000	70
20	000	80
30	000	90
40	000	100

CUSTOM HOUSE DECLARATION.

Two copies of the Customs declaration must be attached to the Despatch Note of every incoming foreign parcel. For outgoing foreign parcels the number of copies varies according to the country of destination but in no case is it less than two.

UNDELIVERED PARCELS.

Undelivered parcels are disposed of according to the sender's instructions, which should be furnished on the reverse side of the Despatch Note. When such instructions are not furnished, the parcel is returned to origin at the expiration of one month from the date of receipt in Palestine.

COLLECTION OF TRADE CHARGES.

(REIMBURSEMENT SYSTEM.)

FOREIGN.

A "Cash on Delivery" Parcel Post Service with the United Kingdom and Egypt only is in operation. "Cash on Delivery" parcels may be accepted for posting at all Post Offices and Branch Offices in Palestine and may be addressed for delivery at any destination in Palestine.

FEES PAYABLE AND TRADE CHARGE.

The sender must prepay, by means of postage stamps affixed to the Despatch Note, a special Cash on Delivery fee at the rate of 1 per cent. of the amount of the Trade Charge with a minimum of 10 mils plus a fixed "posting fee" of 10 mils per parcel. These fees are additional to the ordinary postage and other charges.

The maximum trade charge per parcel is £P.40.

A delivery fee of 15 mils is collected from the addressee of a "Cash on Delivery" parcel in addition to the amount of the trade charge.

INSURANCE OF PARCELS (INLAND & FOREIGN).

Parcels may be insured for delivery at any Post Office in Palestine, except El Majdal or to any country which undertakes such service.

The maximum amount for which a parcel can be insured varies according to the country of destination, but in no case may it exceed £P.120. A parcel may not be insured for an amount exceeding the real value of the contents and the cost of packing.

Insured parcels must be very strongly packed and sealed in accordance with the regulations.

The fee for insurance, including registration but in addition to the ordinary postage, is 20 mils for the first £P.12 or part thereof of the insured value and 7 mils for each additional £P.12 or part thereof.

Every insured parcel containing coin or bullion, watches, precious stones, jewellery, or any article of gold or silver, must be enclosed in a strong box or case (measuring, if the contents are jewellery exceeding £P.100 in value, at least 105 centimetres in length and girth combined), must be sewn up, or otherwise fastened, in a wrapper of linen, canvas, strong paper, or other substantial material and must have the address written on its actual covering. The seals must be placed along the edges of each join or loose flap at distances of not more than 75 millimetres apart.

Parcels may not exceed 10 kilogrammes in weight and for many countries, including Egypt, the maximum weight allowed is 5 kilogrammes.

The maximum length allowed is 105 centimetres.

The maximum length and girth combined, 180 centimetres.

Parcels addressed to foreign countries should generally be packed in tin, canvas, linen or similar material and with due regard to the length of journey, conditions of transit, climate, etc.—not merely in paper or cardboard—and in a manner calculated adequately to protect the contents from damage through contact with other parcels.

An Advice of Delivery of an insured parcel may be obtained on payment of the sum of 13 mils either at the time of posting or subsequently.

INSURED BOX SERVICE (FOREIGN ONLY).

Articles of gold and silver, precious stones, jewellery and other articles of a like nature which are prohibited from transmission in insured letters, may generally be sent in the Letter Mails as insured boxes.

The undermentioned classes of articles are prohibited from transmission in insured boxes to Great Britain :—

Clocks, watches and the principal parts thereof.

Cinematograph films ; letters or notes which may serve as a substitute for correspondence. Current coin, bank-notes, securities payable to bearer, bonds and articles included in the category of commercial papers. It is, however, permissible to insert in the packet an open invoice and also a simple copy of the address of the packet and the sender.

An insured box must not exceed 1 kilogramme in weight or measure more than 30 centimetres in breadth and 10 centimetres in depth. The sides of the wooden box must be at least 8 millimetres thick.

It must be tied round cross-wise with a single strong string (not two or more pieces joined together), the two ends of the string being held firmly together under a seal of fine wax bearing a private mark. All seals on the four sides of the packet must be identical with that used for sealing the ends of the string.

The boxes must not be wrapped in paper.

Insured boxes are subject to the Customs Regulations and must be accompanied by the appropriate forms, which should be most carefully prepared.

No box can be insured for more than its actual value or the limit of insurance allowed.

Postage and insurance fee must be fully prepaid.

The rate of postage is 8 mils per 50 grammes with a minimum charge of 40 mils. The fee for insurance and the limits of insurance are the same as for insured letters to places abroad.

An Advice of Delivery of an insured box may be obtained on payment of a fee of 13 mils either at the time of posting or subsequently.
